We are GW Flowers, a grower of finest roses from Ecuador. Our farms are located at 2900m above sea level in Tabacundo of Pichincha province in Ecuador.

The unique natural conditions of our region including water, air, soil, lighting and altitude coupled with profound expertise of our on-site team provide us with the ability to produce and export long-lasting, premium quality roses boasting rich saturated colors, strong stems and large bud sizes.

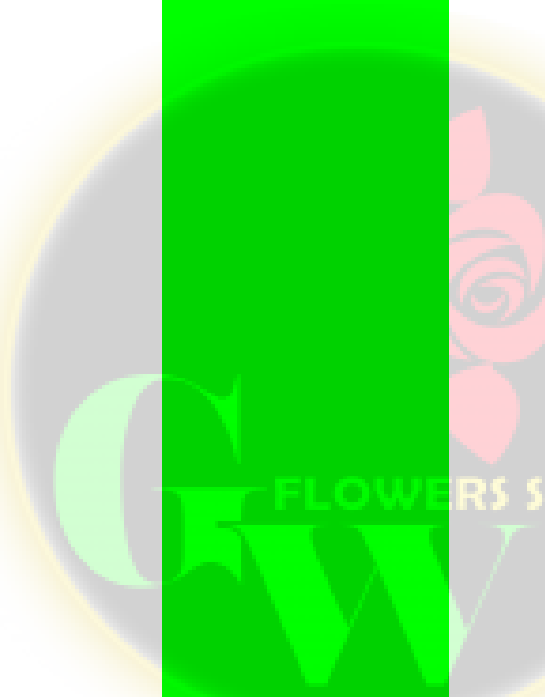

We have started operation in 2017 and are still a young and ambitious farm committed to the highest standards of rose-growing at all stages preceding exports of our 30+ rose varieties which already gained strong reputation in various countries

BICOLOR PINK

A close-up, top-down view of a dense field of deep red roses. The petals are tightly packed and spiral inward, creating a complex, layered texture. The color is a rich, dark red with some darker, almost black, shadows between the petals, giving it a dramatic and somewhat somber appearance. The lighting is soft, highlighting the edges of the petals.
